

## **EXAMINER'S AMENDMENT**

### **Response to the amendment**

The amendment filed on Jan 14, 2008 has been acknowledged. Claims 7, 9, 10 have been amended. New claim 27 has been added. Claims 1-6, 8, 11-26 have been canceled. Claims 7, 9, 10 and 27 are pending.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robyn Adams on March 4, 2008.

The application has been amended as follows:

Please cancel claims 10 and 27.

Claims 7 and 9 are allowed.

2. The following is an examiner's statement of reasons for allowance: Applicants have established a method for purifying GHS-R expressing cells by using peptide zsig33 set forth in SEQ ID NO: 2 to bind a cell expressing the Growth Hormone Secretory Receptor (GHS-R) set forth with SEQ ID NO: 5, wherein the peptide should contain the receptor binding range of amino acid residues 24-37 of SEQ ID NO: 2 and receptor must contain the peptide binding domain of residues 41-326 of SEQ ID NO: 5. No prior art teaches and suggests that the GHS-R is the receptor for peptide zsig 33. The complex formation between the peptide and receptor can be used for identification and purification of the GSH-R expressing cells.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
